5:00 p.m. Eastern Standard Time

Station: Tampa Bay area: WUSF 89.7 FM
For your local affiliate or to listen online please visit www.npr.org/programs/all-things-considered

Who: With eight albums and two hit singles, "Supermodel" and the original "I Kissed A Girl" to her credit, guitarist/singer, Jill Sobule can claim her place among the stellar New York singers-songwriters of the last decade. She is a mainstay and musical contributor at the TED conferences. Jill is also considered a pioneer in crowd sourcing, with her 2009 fan-funded record California Years. She continues to be at the forefront of exploring creative and unique paths to connect artist with fans. She is currently working on her next record, and the musical, "Times Square".

YENTL features a klezmer/folk rock band within the production with songs written by Sobule. The band will feature accordionist Nancy Seibert, local musicians Carolann Evans and Joe Cerrito and the third year FSU/Asolo MFA students. Seibert's original compositions can be heard on Grammy-winning Jimmy Sturr Orchestra's albums.
